Fall 2019 TxACE Promising Researcher Awards

Based at The University of Texas at Dallas, Texas Analog Center of Excellence (TxACE) is focused on analog and mixed signals, circuits and systems research benefiting the areas of energy efficiency, health care, and public safety and security. TxACE seeks to transform analog and mixed signals research into a holistic collaborative process that creates revolutionary integrated circuits and systems driven by both great societal needs and industry.

Announcement

TxACE offers multiple merit-based awards to full-time students who are interested in pursuing graduate studies in the areas related to the research focus of the center. These are available on a competitive basis from Fall 2019. Depending on the qualifications of the applicants, awards range from $5,000 to $10,000 per year for the first two years of studies. Funds are allocated for the academic year and disbursed on a per-semester basis.

Qualifications

1. Strong commitment to and exceptional evidence of excellence in academic and scholarly activities.
2. Applicant must have a research assistantship (RA) offer from a TxACE affiliated faculty member.

Application

Review of applications will start from **January 15, 2019** and continue till **April 30, 2019**. Application will be emailed to Donna Kuchinski and cc to Bilal Akin (djk091000@utdallas.edu, bilal.akin@utdallas.edu) by a TxACE affiliated faculty member. Please mention "Application for TxACE Promising Researcher Awards" in the e-mail subject line. The application package must contain:

1. Most recent resume; it must include: (a) applicant's degrees, GPA & universities attended, (b) GRE scores, and (c) list of research publications (if any), etc.

2. Academic transcripts.

3. Letter of recommendation from a TxACE affiliated faculty member.
